Definitely worth asking. As I recall last time, we overhauled their draft fairly seriously...we can talk w/Ben and I know Christine is already looking at this.

HEFTY!! Do you think there's any way we can convince them to trim this down, or is it not worth asking?

FYI—I haven't looked at this yet, but plan to shortly.

FYI. Sent this to our public affairs person this AM. It's still rough and needs work, but thought better to put in their hands. He and Marianne at EPA have been in touch.

Talk soon, J

Subject: Draft Press Release

Ben,
Apologies for the delay in getting this to you. Would be great to talk to you to explain the nuances here. See what you think. Allison and I are out this morning for a meeting downtown, but in later this afternoon.

I've included you in our meeting at 2pm, when we were going to try to nail down the missing parts of the Rollout Plan. Perhaps you can join and we can talk about both.

Thanks much, Joelle
